Applicant's arguments filed 12-2-02 have been fully considered but they are not persuasive.

***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 26-36 and 38-57 are rejected under 35 U.S.C. 102(b) as being anticipated by WO 93/10167.

WO 93/10167 discloses articles coated with clear urethane coatings prepared from urethane forming reactants inclusive of those claimed (see the entire document). Applicants' newly submitted claims have been considered. However, the limitation of the coatings being "curved" without dimensions does not provide a limitation in a patentable sense. Further, "curved" without dimensional limitations does not differentiate over the preferred flat coats of the WO 93/10167 reference. Also, WO 93/10167 is not seen to be limited to flat, "uncurved", coats as alleged by applicants.

Applicants' arguments have been considered but are unpersuasive of patentability. Applicants' argue that the reference requires pigments in their coatings and removal of pigments would destroy the referenced teachings. Examiner does not agree with this position. The reference clearly recites that pigments "can be" added to the urethane layer which is not to say that pigments are required. Further, WO 93/10167 recites that their articles are "useful in pavement marking applications". This statement can not fairly be interpreted to be saying that WO 93/10167's teachings are limited solely to pavement marking applications.

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
